Also Lessee and Proprietor of the following first-class Halls: The "Urban," "Russian," "Banquet," and "Highland." These halls are very desirable for dancing, balls, private parties, suppers, &c., &c.

GARDNER CHILSON'S IRON FOUNDRY,

MANSFIELD, MASS.

WAREROOMS, Nos. 99 & 101 BLACKSTONE ST. BOSTON, MASS.

INVENTOR, MANUFACTURER AND DEALER IN

CHILSON'S

CELEBRATED AND UNRIVALLED

BRICK AND PORTABLE FURNACES,

(With New and Important Improvements of 1875, for Warming Buildings of all classes.)

Special attention is called to my

NEW CLINKERLESS GRATE.

My thorough practical experience in Furnace making for nearly forty years — in all their various forms, of Cast and Wrought Iron — has enabled me to know how a Furnace should be made to accomplish the best results. No pains nor expense will be spared in keeping up the high reputation this Furnace has attained. Nearly *Thirty Thousand* are now in use. In addition to the above, my new

WROUGHT IRON FURNACE

is now out, to which I would ask the attention of all in pursuit of the Best Wrought-Iron Furnace in the market. This also has my New Clinkerless Grate.

CHILSON'S

New and Splendid **Brick Set Cooking Range,** the **ARLINGTON.** All in want of the most splendid and thoroughly-made BRICK RANGE ever seen in any Kitchen, are invited to examine this Range. The *latest and best Improvements* have been adopted to make it complete, especially for Water and Air heating.

CHILSON'S

Entirely New and greatly Improved (Sept. 1875.) **ARLINGTON PORTABLE RANGE.** I would call the special attention of those using PORTABLE RANGES, to a thorough examination, inside and out, of this, the most splendid Range ever made. It has all the modern Improvements and Conveniences, including my new CLINKERLESS GRATE. No one in want of good work should fail to see this Range. The old pattern **Arlington Range** that has had such a great run and perfect success for the past four years is still being manufactured.

CHILSON'S ARLINGTON COOKING STOVE, and the **ARLINGTON PARLOR STOVE,** are still the leading Stoves.

CHILSON'S CONE DISK STOVE, for warming Railroad Cars, Stores, Halls, Factories, School Rooms, &c.

Special attention given to putting up Furnaces and Ranges, and the Ventilation of Buildings in any part of the country. ☞ Nothing but what is strictly first-class work is manufactured by me.

GARDNER CHILSON.

IMPROVED COMPOSITION

DRAWING OR ROVING CANS.

FOR USE IN THE MANUFACTURE OF YARNS.

PATENTED BY PETER LAWSON, MAY 18, 1869.

LOWELL, October, 1, 1875.

GENTLEMEN: — I again present for your consideration the Testimony of a number of well-known, reliable, practical manufacturers to the advantages derived by the use of my Patent Improved Composition Drawing Can, after the many severe trials of five years, of their lightness, elasticity and durability. And as a proof that they give perfect satisfaction, and of their durability, I am happy to state that my orders for the past two years have more than doubled, being largely duplicate orders, made of my improved paper board, from those who have thoroughly proved them for years.

After five years' test I am now prepared to state, that with the improvements I have made lately in my paper, they are now more durable than any Tin Cans. If they fall, get dented, or out of shape, they are so elastic that they at once spring back to their original form; consequently they are always true on the Turn-table, so that the Presser or Coiler acts accurately. With the double band inside it is impossible to break or make a hole in the Cans, or destroy them by kicking, or rough usage of any kind.

LOWELL HOSIERY MILLS,
LOWELL, October 26th, 1875.

HON. PETER LAWSON — *Dear Sir:* We have a large number of your improved Patent Composition Drawing Cans in our Mills for over two years. They are light and strong, and as you have strengthened them at the bottom with your inside band, I am satisfied they will be as durable as any iron or tin can. Our help invariably use your Paper Cans on account of their lightness and smoothness, in preference to the tin cans. I am satisfied, had you been fortunate enough in introducing your Improved Drawing Cans with your improved paper at first, instead of your old paper, that tin and iron cans would now be at a discount, and your Patent Improved Cans universally approved.

ENOS O. KINGSLEY, Superintendent.

OFFICE OF THE TREMONT AND SUFFOLK MILLS,
LOWELL, March 25th, 1875.

HON. PETER LAWSON — *Dear Sir:* We have used in our mills your Paper Drawing Cans over four years, and thus far are perfectly satisfied with them in all respects, on account of their lightness, smoothness, and economy. Your new Improved Paper Cans sent us over two years ago are much stronger and more durable, better by far than the first cans delivered us; they are superior to tin or iron cans. From experience I am satisfied your improved kind is the best Drawing Can in use. To show you we are satisfied with them, please make for us eighty-two cans 16 × 36; one hundred and sixteen cans 14 × 36; one hundred and forty cans 12 × 36.

Very truly yours, THOMAS S. SHAW, Agent.

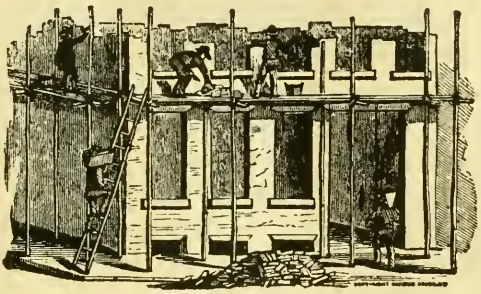

OFFICE OF THE TREMONT AND SUFFOLK MILLS,
LOWELL, October 11th, 1875.

HON. PETER LAWSON — *Dear Sir:* I have used your Improved Composition Drawing Cans for the past three years with perfect satisfaction. I would say that your Cans, with your latest improvement in the material and construction, are the best Cans I have ever used. I prefer them to any metal can, and would recommend them to all who wish a light, easily handled, smooth and durable Drawing Can.

Yours truly, SAMUEL CHAPIN,
Overseer Carding, Tremont Corporation.

DAVIS' HYGIENIC REFRIGERATOR,

Economizes the ICE and utilizes the ice cold water in cooling the Provision Chamber. The cold water also serving an important sanitary purpose in absorbing the unwholesome gases that collect in a Refrigerator. From actual weighing through one season we find that

LESS THAN ONE-HALF THE ICE IS USED,

and at the same time gives a more even temperature in the provision chamber, consequently keeps provisions better. This Refrigerator has been tried in many families with the best of satisfaction, as certificates will show, for which please call on the Manufacturer.

J. LATHAM & CO.,

419 WASHINGTON ST., BOSTON, Mass.

DR. E. D. SPEAR,

So much Celebrated for his Remarkable Cures.

OFFICE, No. 897 WASHINGTON STREET, BOSTON.

A SKILFUL PHYSICIAN.—We shall perhaps convey no fresh information to the reader when we state that Dr. E. D. SPEAR, No. 897 Washington Street, is one of the most skilful physicians in our city. He has been in active practice for many years, and this includes every variety of disease. He has been particularly successful where other physicians have seemed to fail. All who desire to procure the services of a physician who can be relied upon, should call upon Dr. SPEAR.—*Congregationalist*, Feb. 26, 1874.

THE advertisement in another column is worthy the attention of the afflicted, in view of the proofs there given of the efficacy of the remedies of Dr. SPEAR in cases of bleeding at the lungs, and other consumptive symptoms. The names of parties are given, some of them accessible to inquirers by reason of their residence in our midst. The office of Dr. SPEAR is at 897 Washington Street, not far from the head of Pleasant.—*Daily Evening Traveller.*

TO all who need the services of an experienced, successful physician, we would say, consult Dr. E. D. SPEAR, so much celebrated for his remarkable cures, and you will never regret having taken this advice.—*Boston Herald.*

THE testimony of many persons who seemed fit tenants for the grave, and who now, happily, enjoy the best of health, is proof sufficient of the great efficacy of the medicines and treatment of Dr. E. D. SPEAR, so much celebrated for his remarkable cures. Success has attended the efforts of Dr. SPEAR in a wonderful degree; and astonishing cures are related, the proofs of which are now living, and will only be too happy to testify in behalf of the doctor's skilful treatment. "Consumption's ghastly form" has brought terror to many a stout heart, and defied the skill of many an excellent physician. That Dr. SPEAR has restored to perfect health many suffering from this obstinate disease is an undoubted fact, and the sceptical should be convinced by investigation.—*Watchman and Reflector.*

DR. SPEAR has been in active practice (except a few years spent abroad in perfecting his system of medicine) for more than a quarter of a century, during which time he has treated thousands of nearly all the different ills to which flesh is heir. The great principle in his system is:—Discard the use of all mineral medicines, as not only useless, but dangerous. Rely on Vegetable Products entirely.

DR. SPEAR will also refer to James T. Croft, 97 Beverly Street, cured of consumption.

John Ward, 787 Sixth Street, cured of consumption.

Charles W. Doe, of Marblehead, cured of hæmoptysis.

John G. Higgins, of Wellfleet, cured of bleeding from the lungs, fourteen years ago.

Rev. E. H. McKenney, of Lynn.

Mrs. Erving, 35 Appleton Street, Boston.

Mr. William B. Trask, Pond Street, Ward 16.

Mr. Russell Carruth, 18 East Canton Street, Boston, and many others who have been cured of various diseases which had baffled the skill of other physicians.

DR. SPEAR may be Consulted upon ALL Diseases Free of Charge.

CODMAN & SHURTLEFF,

13 and 15 TREMONT ST., BOSTON.

MANUFACTURERS AND IMPORTERS OF

Surgical & Dental

INSTRUMENTS,

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public :—

TRUSSES.

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel. **N. B.**—Ladies attended by those of their own sex.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity, the stout silk being usually the most satisfactory. The sizes are full length (of leg), three quarters, half or knee hose, knee caps, and anklets. Unusual sizes made to order. Also,

Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club-Feet, Etc. Also Crutches of various and most improved kinds; Syringes, Rubber Urinals, to wear on the person day or night, for Males and Females; Galvanic Batteries, Hearing Trumpets, Auricles and Conversation Tubes for the Deaf,

Together with many other articles for the use of the SICK and INVALIDS. Also, the largest and best assortment of

Atomizers and Nasal Douche,

To be found in the United States. A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician :—

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition the highest premium. * * * The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture. GOLD MEDAL. (Signed). GILMAN KIMBALL, M. D., Chairman."

In addition, is given a Chronicle of Events of the past year, an Almanac and Memoranda. A COLORED MAP OF BOSTON, showing the *NEW WARD BOUNDARIES*, and including Cambridge, Somerville, and Brookline, will accompany the book. **Price, One Dollar.**

Published by SAMPSON, DAVENPORT, & CO.,

155 FRANKLIN STREET, BOSTON.

FOR ALL KINDS OF MACHINERY.

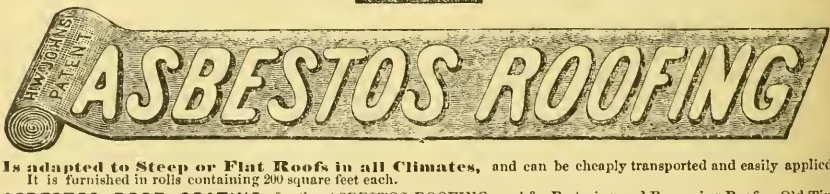

As a thoroughly good lubricant for machine use, Downie's Hyper Sperm Oil has received unqualified commendation from mill-owners and manufacturers. With all the good qualities of genuine sperm oil, and with none of its objectionable features, it is not strange that it has come into so general use. It is less than one-half the cost of sperm oil, and will not stain the most delicate fabric, while, as it has not in the slightest degree the objectionable "gumming" peculiarity of sperm oil, the machinery runs with greater ease and smoothness, giving, in the amount of power required, *i. e.*, pounds of coal burned, a saving by no means inconsiderable. Mr. William Downie, the inventor of the oil, after years of experience in mills, and other manufacturing establishments in Europe, finally succeeded in perfecting such a lubricant as his personal knowledge of manufacturers' needs taught him would be appreciated. And so the event has proved. The name, "Hyper Sperm Oil," has just been patented and is now the trade-mark of the article.—*Commercial Bulletin, Oct. 23d*, 1875.

167 Devonshire, and 28 Arch Sts., Boston, Mass.

Is adapted to Steep or Flat Roofs in all Climates, and can be cheaply transported and easily applied. It is furnished in rolls containing 200 square feet each.

ASBESTOS ROOF COATING, for the ASBESTOS ROOFING, and for Restoring and Preserving Roofs. Old Tin, Shingle, Felt, and other Roofs can be made water-tight and rendered serviceable for many years with this COATING and the ASBESTOS CEMENT.

ASBESTOS CEMENT, for repairing Leaks around Chimneys, Dormer Windows, etc. In pails and kegs.

ASBESTOS ROOF PAINT, a strictly first-class article, superior body, rich color, contains no tar or cheap oils. For Shingle, Tin, and other Roofs.

ASBESTOS PAINTS, all colors, ready for use. In pails, kegs, and barrels.

ASBESTOS BOILER FELTING, a perfect Non-Conducting Covering for Steam Pipes, Locomotive, Marine, and other Boilers, Sheathing, etc.
